PROFESSIONAL PROFILE

Computer Science graduate from the University of Science and Technology of Southern Philippines. Knowledge of software development, machine learning, data analysis, and web development. Experience gained through academic research, personal projects, and a software development internship.

EDUCATION

University of Science and Technology of Southern Philippines *Cagayan de Oro City, Philippines*
Bachelors of Science in Computer Science

- Cum Laude
- DOST-SEI JLSS Scholar
- Dean's List — 7 semesters (AY 2022 – 2026)

Gusa Regional Science Highschool - X *Cagayan de Oro City, Philippines*
Senior High School (STEM), (AY 2020 – 2022)
Junior High School (AY 2016 – 2020)

PROFESSIONAL EXPERIENCE

Kahero POS Systems *Cagayan de Oro City, Philippines*
Developer Intern *June - July 2025*

- Underwent structured training in building ReactJS and Flutter applications.
- Gained additional exposure to QA workflows through manual testing and bug documentation.

GigzPH IT Solutions *Cagayan de Oro City, Philippines*
Junior Programmer *August - September 2026*

- Performed data entry and content encoding for a web-based POS platform, creating and maintaining records with accuracy and attention to detail.

ACADEMIC PROJECTS

DyMoN: A Post-Hoc Kinematic Approach for Detecting Anomalies in Dynamic Networks

- Designed a post-hoc anomaly detection module for temporal graphs that tracks node embedding kinematics as a plug-and-play enhancement over base models, built with PyTorch, NetworkX, and scikit-learn on real-world datasets including MOOC, Wikipedia, and Reddit.

PERSONAL PROJECTS

AutogradeQuiz (WIP)

- Bubble-sheet quiz grading system with a Python/FastAPI backend and Next.js/Tauri desktop frontend, using OpenCV for image-based bubble detection and SQLite for grading data.

Code-map

- A React/React Flow tool that visualizes codebases as interactive dependency graphs. It parses file imports and exports, draws nodes for each file, and shows dependencies as edges.

Website Portfolio

- A portfolio and guestbook web app built with React, TypeScript, and Tailwind CSS on the frontend and Express with a Supabase (PostgreSQL) backend.

SKILLS

Programming Languages: Python, HTML, CSS, JavaScript, TypeScript, Java, C++
Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Kaggle, Google Workspace (Docs, Sheets)
Frameworks & Libraries: ReactJS, Node.js, Tailwind CSS, PyTorch, scikit-learn, pandas, NumPy
